Layout is a critical component to an exceptional trailer. General Coach optimizes every inch by combining the best available materials with years of experience building park models to create a generous open living environment. Choose from many existing floor plans. If you'd like to add your personal touch, we can customize a trailer to fit your taste and lifestyle. DETAILS MATTER

DEDICATED EXCELLENCE GOES INTO EVERY PARK MODEL WE BUILD.

Our goal is to make living in a park model a great experience. We understand trailers use space differently than conventional homes, which is why we pride ourselves on optimizing every inch of space with such features as a TV stand that rotates between the kitchen and living room and a cabinet that conserves space by sliding a TV up and down.
